Projects

Eatery   live site | GitHub
⇒ A full stack web application that allows users to create a login, view local restaurants and reviews, and post their own reviews as well
⇒ Implements Google Maps and plots markers to show locations of restaurants according to their latitude and longitude
⇒ Provides security for users by encrypting passwords using key stretching techniques with BCrypt hashing
⇒ STACK: Ruby, Rails, React, Redux, PostgreSQL, AWS, HTML, SCSS, Git

JavaScript Game   live site | GitHub
⇒ A pure JavaScript game
⇒ STACK: JavaScript, HTML, SCSS, Git

Code Intensive   live site | GitHub
⇒ Great choice for code intensive
⇒ STACK: Ruby, Rails

Experience

Licensed Relationship Manager
Citizens Bank / Key Bank   Sept 2014 – Sept 2017
⇒ Learned everything as fast as possible from scratch and became a regional top 5 banker in 3 quarters.
⇒ Won over customers by providing great customer service, including a customer that started with a phone call and ended in a banking relationship worth 34 million.
⇒ Aggressively took every opportunity for growth and earned Series 6, Series 63, and Series 65 licenses within 4 months of starting the role

Associate Pastor
Cornerstone Church of Boston   Sept 2008 – May 2015
⇒ Took a music ministry that started with no structure and established, culture, vision, direction, and processes for recruiting, developing, and onboarding.
⇒ Led the college ministry in my last 4 years. By implementing a strategy that would focus on leadership development and empowerment, was able to double the size of the ministry in those 4 years.

Technical Skills

Ruby / Ruby on Rails
JavaScript
HTML / CSS / Sass
React
Redux
